I. Introduction

A. General

1. The Federal Home Loan Bank of San Francisco ("Bank") has established an Affordable Housing Program ("AHP"), pursuant to Section 21 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989, to assist in financing affordable housing for very low-, low-, and moderate-income individuals. This Implementation Plan ("Plan") has been adopted, and from time-to-time amended, by the Bank in accordance with the requirements of Part 1291 of the Federal Housing Finance Agency Regulations governing the AHP, as amended from time to time.(12 C.F.R. Part 1291) ("Regulation").
2. This Implementation Plan sets forth certain policies, procedures, standards, and requirements applicable to the Bank's AHP, as required by the Regulation. While the Implementation Plan includes other pertinent information pertaining to the Bank's AHP, the plan is not intended to be a comprehensive statement of all of the Bank's applicable policies and procedures.
3. The Bank President is responsible for the development and implementation of this Plan and for proposing amendments to this Plan for Board approval as appropriate. The President may delegate specific aspects, duties, and responsibilities of this Plan to management committees, officers of the Bank, or other Bank staff as deemed appropriate.
4. The Bank's AHP consists of a competitive application program and two homeownership set-aside programs, as described in this Implementation Plan. References in the Implementation Plan to the Bank's AHP shall mean both the competitive application program and the set-aside programs, unless otherwise stated. As required by statute, the Bank will offer AHP subsidized advances upon request.

B. Funding the AHP

1. The total amount of funds available annually for the Bank's AHP is determined in accordance with the statute and subject to paragraph 2 below.
2. The Bank allocates a portion of the total AHP funds available in each year to the homeownership set-aside programs, as approved by the Bank's Board of Directors and stated in Section III of the Implementation Plan. All remaining AHP funds available for that year, plus any reserved set-aside funds not utilized during the previous reservation year, plus such additional amounts made available from the cancellations, repayments, or reductions of subsidies, are added to the competitive application program.
3. The Bank may allot to its current year's AHP from its annual required AHP contribution for the subsequent year subject to the requirements and limitations in 1291.2(b)(3) of the Regulation.

C. Federal Housing Finance Agency Regulation

This Implementation Plan will be adopted as prescribed in 1291.3(a) of the Regulation.

D. Definitions

The definitions set forth in Section 1291.1 of the Regulation, as amended from time to time, will apply to the Bank's AHP and this Implementation Plan.

1. First-Time Homebuyer– (First-Time Homebuyer) must meet one of the following requirements to qualify:
 - a. The potential homebuyer or spouse has had no ownership in a principal residence for a three-year period ending on the purchase date of the property. If either qualifies under one of these requirements, both are considered First-Time Homebuyers.
 - b. The potential homebuyer is a single parent who has only owned a home with a former spouse while they were married.

- c. The potential homebuyer is a displaced homemaker who has only owned a home with a spouse.
 - d. The potential homebuyer is an individual who has only owned a principal residence not permanently affixed to a permanent foundation, according to applicable regulations.
 - e. The potential homebuyer is an individual who has only owned a property that was not in compliance with state or local building codes and which cannot be brought into compliance for less than the cost of constructing a permanent structure.
2. Project—A project may consist of one or more structures as long as all of the residential units in the structure(s) are included in the total project units. Units may not be segregated within one or more structures and be designated as separate projects.

E. Median Income Standards

Income eligibility for recipient households in both the competitive and the set-aside programs will be based on median income standards for the area, as published annually by HUD, adjusted for family size, with two exceptions: 1) owner-occupied housing programs/projects serving Indian areas may elect to use median income standards allowable under the Native American Housing Assistance and Self-Determination Act (NAHASDA); and 2) owner-occupied housing utilizing the U.S. Department of Agriculture's Rural Development Self-Help 502 Loan Program may use the income qualification guidelines prescribed under that program.

II. Competitive Program

A. Competitive Funding Round

The Bank will offer one competitive funding round at least once each calendar year. The schedule for the competitive round will be announced by December 31 of the prior year.

B. Eligibility

1. Member eligibility
 - a. The Bank accepts applications for AHP funds only from current Members of the Bank as specified in Section 1291.5(b)(2) that are in good standing. For purposes of the competitive application program and set-aside programs, a Member is in good standing if, as determined by the Bank, the Member is creditworthy and has fulfilled all necessary requirements for membership in the Bank, including the purchase of all required capital stock in the Bank, and is not in default with regard to any obligations or commitments under any of its programs including, without limitation, the AHP.
 - b. The maximum subsidy a Member may apply for in a single competitive round is ~~\$10,000,000~~\$15,000,000.¹
2. Basic project eligibility – All projects must meet the minimum eligibility requirements in Section 1291.5(c), and the Bank's project cost guidelines and feasibility guidelines set forth in Attachment A of this Implementation Plan.
 - a. Retention requirements and Agreements with Members and Sponsors
 - 1) All units in an owner-occupied project must be, or must be committed to be, subject to a retention agreement meeting the requirements set forth in Section 1291.9(a)(7) of the Regulation, for the period specified in such regulation. Each rental project must be, or must be committed to be, subject to a retention agreement described in Section 1291.9(a)(8) of the Regulation, for the period specified in such Regulation.

¹ If a Member sponsoring an AHP application, fails during the competitive round, prior to approval of the application for subsidy, the Bank will not approve the application unless a substitute Bank Member is found to sponsor the project. Without a Bank Member to sponsor the application, the application is ineligible for consideration. If a successor Member is found, the maximum subsidy the successor Member may apply for in the round will be raised to include the subsidy requested in each failed Member's application(s) assumed by the successor Member, not to exceed ~~\$10-15~~ million per failed Member.

- 2) Each Member and Sponsor receiving AHP subsidy through the competitive application program will be required to execute with the Bank documents in a form satisfactory to the Bank and meeting the requirements of the Regulation.
- b. A project's Sponsor must be qualified and able to perform its responsibilities as committed to in the application and must also:
 - 1) In the case of rental projects, have an ownership interest in the project (including any leasehold, partnership, or controlling interest).
 - 2) In the case of owner-occupied projects, be integrally involved defined as exercising control in at least one of the following development activities: planning, development, or management of the project, or by qualifying borrowers and providing or arranging financing for owners of the units.
 - c. The Bank does not currently allow loan pools and revolving loan funds to participate in the AHP competitive application program.
 - d. The maximum amount of subsidy a project may apply for is ~~\$1,500,000~~\$2,000,000.

C. Application and Approval Process – The Bank approves competitive program applications pursuant to the requirements detailed in 1291.5(e)

1. Scoring system – The Bank evaluates, scores, and rates AHP competitive program applications based on a scoring system adopted by the Bank consistent with Section 1291.5(d) of the AHP Regulation. The scoring system allocates 100 available points among nine scoring criteria. Applications are scored based on the extent to which the proposed projects satisfy the scoring criteria. The Bank's scoring system is described in detail in the Scoring Guidelines set forth in Attachment B of this Implementation Plan. Attachment B is a part of this Implementation Plan and may only be amended in accordance with the regulatory requirements for amending the Implementation Plan.

Tie-Breaker Criterion—If one or more projects receive identical scores, and those projects are not requesting more than the amount of funds that remain to be awarded, the Bank may rank those projects in descending order, based on the largest percentage of committed sources of funds, measured in dollars, over the total sources of funds.

2. Feasibility and need-for-subsidy analysis – The Bank evaluates the operational and financial feasibility of a project and the need for AHP subsidy, as required by Section 1291.5(c)(4) of the Regulation, using the Feasibility Guidelines set forth in Attachment A to this Implementation Plan. The Feasibility Guidelines include a set of development cost and financing criteria and related benchmark ranges, designed to guide the Bank in assessing a project's developmental feasibility and need for subsidy. Another set of benchmarks analyzes a rental project's operational feasibility. The Bank takes into account such other limits and restrictions on project costs and financing terms as required by the Regulation, including those pertaining to Member-provided property and services, and those related to the rates, points, fees and other charges for all loans financing a project.
3. Multiple applications for AHP subsidy– Members and Sponsors of incomplete projects with existing AHP awards, from FHLBank San Francisco, or another FHLBank, may submit new applications for these projects in a competitive round on condition that the existing subsidies are canceled and any previously disbursed subsidies are repaid.
4. Modifications for additional subsidy—As an alternative to withdrawing an existing award and reapplying in a competitive round, Members and Sponsors may request additional subsidy using the Bank's modification process, subject to the availability of funds, Board approval, and certain other restrictions. (See paragraph G.2).

D. Procedures for Disbursement of Subsidy

1. The Bank will only disburse subsidies

- a. To an institution if that institution is a Member of the Bank in good standing, or
- b. If an institution's membership in the Bank terminates either through merger, or other charter change, but the surviving entity is a Member of another FHLBank, the Bank in its discretion, and on such terms and conditions, and documentation, as are acceptable to the Bank, may disburse subsidy to that institution.

2. Review at Disbursement of Subsidy

- a. Request for Disbursement - A project approved under the competitive program that is ready to receive funds may request disbursement of all or part of the approved subsidy. Disbursements will be processed by the Bank in accordance with the Bank's procedures and guidelines for funding of subsidies and applicable monitoring procedures, which are published on the Bank's website, fhlsf.com. If the disbursement request cannot be processed within 45 calendar days of the Bank's receipt of the request because of incomplete or missing information, the request for disbursement will may be returned to the Member for resubmission at a later time.
 - b. Documentation Requirements - The Bank's funding and monitoring procedures and guidelines for the competitive program require that the applicant Member and project Sponsor provide the Bank with current information about the project sufficient to enable the Bank to verify, prior to funding, that the project maintains compliance with the requirements of the AHP. The Member or, as may be delegated, the project Sponsor must complete and submit to the Bank a comprehensive package of project-related documents including, but not limited to, current income and expense statements, current development budgets, relevant closing and loan documents, sample or actual retention documents, monitoring agreements from other monitoring entities, if applicable, and evidence of affirmative marketing. The Bank's Instructions to Members for Requesting Funds are provided to Members and Sponsors on its website fhlsf.com.
 - c. Compliance Review - In processing disbursement requests, the Bank reviews the information submitted with the disbursement request and other pertinent project information obtained from the Member and Sponsor during the review process. The Bank verifies that the project continues to qualify for the awarded subsidy based on the applicable threshold requirements and scoring criteria and that the project is in compliance with the obligations committed to in the approved application. The Bank re-evaluates the financial and operational feasibility of the project, and verifies the project's continued need for subsidy. Members and Sponsors requesting AHP funds from the Bank must have in place documents in a form satisfactory to the Bank and meeting the requirements of the Regulation, and may be required, upon the Bank's request, to provide copies of such agreements to the Bank prior to the Bank's disbursement of funds.
 - d. Adjustments to Subsidy Amounts - In cases where AHP subsidy was approved to fill a funding gap and such approval was based on estimates of other funding sources or applicable costs at the time of application, the amount of subsidy finally awarded, funded and allowed to remain outstanding to a project may change if actual project data varies from the estimates or representations made in the application. The Bank re-evaluates the need for AHP subsidy in a project, in accordance with the Bank's Feasibility Guidelines and its policies and procedures. If the Bank determines that the amount of subsidy awarded to a project was never, or is no longer justified based on information available to the Bank, the Bank may cancel or reduce the amount of subsidy.
3. Timing of Disbursement from Member to Sponsor or Homebuyer – Upon receipt of the AHP funds from the Bank, a Member must disburse the funds to the project, Sponsor or Homebuyer within 30 days or return funds to the Bank. The Bank will charge interest to the Member for each day that AHP funds are not disbursed by the Member within that 30-day period. The rate of interest charged is based upon the Bank's average monthly overnight deposit rates. Interest collected by the Bank from Members pursuant to this disbursement policy is contributed to the Bank's AHP fund and made available for other AHP-eligible projects. The Bank may waive interest charges incurred by a Member pursuant to this disbursement policy if the total interest owed by the Member for any project is less than \$500.

E. Compliance Monitoring

All competitive program projects approved for and receiving AHP subsidies must be monitored in accordance with the requirements of Section 1291.7 of the AHP Regulation and the Bank's policies and procedures for monitoring.

Members and project Sponsors must have in place documents in a form satisfactory to the Bank and meeting the requirements of the Regulation, prior to requesting funding from the Bank. The Bank's procedures for carrying out its initial and long-term monitoring obligations are included in this plan as Attachment C. Attachment C is a part of this Implementation Plan and may only be amended in accordance with the regulatory requirements for amending the Implementation Plan.

F. Time Limits on Use of Subsidy

1. Under the competitive application program, a project has four years from the approval date of the awarded AHP subsidy to draw down the approved subsidy and complete all units. If a project does not meet this standard, the Bank may cancel its approval of the subsidy and make the subsidy available for other AHP-eligible projects.
2. If, prior to four years from the approval date, the Bank determines that a project has failed to make reasonable progress towards draw down of the subsidy and completion of all proposed units such that it is unlikely to complete the project within four years, the Bank may, at its discretion, cancel up to the entire amount of the AHP subsidy awarded to the project. Factors considered in determining whether reasonable progress is being made may include, without limit, the status of project construction and financing, and compliance with application commitments.
3. If the Bank, pursuant to this Time Limits on Use of Subsidy policy, cancels a subsidy that has already been drawn down, the Member or project Sponsor, as applicable, shall repay the subsidy, along with such interest as the Bank may require.
4. If four years have elapsed since the approval of the subsidy, the Bank may, at its discretion, and subject to such conditions as the Bank may impose, extend the time limit for the use of the subsidy on a case-by-case basis, if sufficient evidence is provided to the Bank documenting, to the Bank's satisfaction, that reasonable progress has been made towards draw down of subsidy and project completion or that such progress is likely to be made during the extension period.

G. Modifications

1. The Bank processes project modifications in accordance with the requirements of Section 1291.5(f) of the AHP Regulations and the Bank's project modification procedures. The Bank requires that project Sponsors and Members report to the Bank any material changes in an approved project. A material change means any change that could affect the facts under which the competitive program application was originally scored and approved by the Bank.
2. Special procedures for requesting additional subsidy – Modifications involving requests for additional subsidy are subject to the availability of funds, Board approval, and certain other restrictions. Members and Sponsors are therefore encouraged to contact Bank staff well in advance of any funding needs to ensure adequate processing time for the request.

H. Subsidy Recovery

If AHP subsidies are not used in compliance with the terms of an approved application the requirements of the Regulation, and the Bank's policies and procedures, the Bank will take remedial actions in accordance with the requirements of Section 1291.8 of the Regulation and the Bank's other documentation executed by the Member and project Sponsor.

1. Except as provided below in sections 5 and 6, Members must repay the Bank the amount of subsidy that is not used in compliance with the terms of the application and the Regulation if the noncompliance is the result of the Member's own actions or omissions.

2. Except as provided below in sections 5 and 6, Members must take steps to recover from the project Sponsor, and repay to the Bank, any amount of subsidy (plus interest if appropriate) that is not used in compliance with the application and the Regulation as a result of the Sponsor's actions or omissions.
3. Except as provided below in sections 5 and 6, the Sponsor of the project must be required to repay to the Member the amount of any subsidies (plus interest, if appropriate) that, as a result of the Sponsor's actions or omissions, are not used in compliance with the terms of the application and the Regulation.
4. The Bank must take steps to recover from a Member the amount of subsidy (plus interest, if appropriate) that is not used in compliance with the terms of the application and the Regulation if noncompliance is the result of the Member's actions or omissions, and the Bank will also take steps to recover from a Member any amount of subsidy that the Member recovers or is required to recover from a Sponsor due to noncompliance resulting from project Sponsors actions or omissions.
5. A Member will not be liable to the Bank for the return of any amounts that cannot be recovered from the Sponsor through reasonable collection efforts.
6. Repayment of subsidy will not be required if the Member or Sponsor is able to cure the noncompliance within a reasonable time or the circumstances of noncompliance are eliminated through an approved project modification.
 - a. The Bank may enter into a settlement agreement with a Member, project Sponsor, or project Owner, for the purpose of settling claims against the Member for repayment of subsidies.
 - b. A Member or project Sponsor may, at its option and upon written request to the Bank, enter into a written agreement with the Bank under which the Member or Sponsor consents to be a party to an enforcement proceeding initiated by the Finance Agency regarding the repayment of subsidies received by the Member or Sponsor, or the suspension or debarment of such parties, provided the Member or Sponsor agrees to be bound by the Finance Agency's final determination in the enforcement proceeding.
 - c. Subsidy amounts repaid to the Bank as a result of noncompliance will be made available for other AHP-eligible projects.

III. Homeownership Set-Aside Programs

The Bank will set aside a portion of its annual AHP contribution each year to fund one or more homeownership set-aside programs offered by the Bank pursuant to the AHP Regulation. The Bank has established the following homeownership set-aside programs: IDEA and WISH.

A. Program Requirements for Individual Development and Empowerment Account (IDEA) and Workforce Initiative Subsidy for Homeownership (WISH)

1. Member eligibility

The Bank accepts applications for AHP funds only from current Members of the Bank as specified in 1291.6(b) that are in good standing.
2. IDEA or WISH set-aside funds may be used only as a grant toward the downpayment and/or reasonable and customary closing costs for the purchase by an eligible household of an owner-occupied housing unit to be used as the household's primary residence. The HUD-1 settlement statement and related closing documents must show that all AHP subsidies were used for these, and only these, purposes. If a settlement statement shows cash back to the homebuyer in an amount greater than \$250, the AHP set-aside subsidy that the Bank will pay to the Member from IDEA or WISH for the homebuyer will be reduced, unless the Member and the homebuyer provide sufficient documentation showing that the cash back was used to pay down the mortgage principal or for reasonable and customary closing costs or as a credit toward the household's monthly payments on the mortgage loan.
3. The Member may only provide IDEA or WISH set-aside funds to households who are enrolled in that set-aside program and whose incomes at the time the household enrolled in the set-aside program by the Member are no greater than 80% of the area median income in accordance with the median income standards described in Section I of this Implementation Plan and with the income eligibility guidelines published by the Bank.

4. The homebuyer must have successfully completed, and the Member must certify completion of, a homebuyer's counseling program provided by, or based on one provided by, an organization recognized as experienced in homebuyer counseling.
5. The housing unit purchased with IDEA or WISH set-aside funds must be subject to a five (5) year retention agreement consistent with the requirements of Section 1291.9(a)(7) of the Regulation.
6. The Member must certify that the IDEA or WISH set-aside funds are used for an eligible purpose and the rate of interest, points, fees and any other charges for all loans made in conjunction with the AHP direct subsidy shall not exceed a reasonable market rate of interest, points, fees and other charges for loans of similar maturity, terms, and risk.
7. Reservation of funds
 - a. Beginning in January of each year, Members may apply for a combined reservation of funds up to a total maximum of ~~\$1,000,000~~\$4,000,000, respectively, under each of for the IDEA and WISH programs. Reservation applications will be subject to a deadline date within the first quarter of the calendar year to be determined and published by the Bank. If the total amount of funds requested under the ~~particular IDEA and WISH programs~~ in the first quarter exceeds the amount of funds set aside for ~~that the~~ programs, the Bank may adjust downward a reservation amount requested by a Member based on certain criteria, such as, but not limited to: the demonstrated ability of the Member to administer the set-aside program, the readiness of the prospective homebuyer(s) to close on a home purchase transaction within the award year, as evidenced in the application, and the geographic distribution of future home purchases, as evidenced in the application, or, the Bank may adjust downward all reservation amounts ~~in such program~~ by pro-ration.
 - b. IDEA or WISH reservations not disbursed by March 31st of the following year will be cancelled and made available for other AHP-eligible projects. IDEA or WISH reservations may be extended beyond March 31st only on condition that escrow has opened or that the buyer has deposited funds for the closing (or other equivalent process for consummating the commencement of a sale of property in the applicable state) by March 31st on the home purchases to be subsidized.
8. Conditions for reimbursement of IDEA or WISH funds by the Bank to the Member:
 - a. At the time the Member requests reimbursement of IDEA or WISH funds from the Bank, the Member must provide the Bank with sufficient documentation verifying that the homebuyer is income eligible at the time of enrollment in that set-aside program in accordance with the Bank's published income eligibility guidelines.
 - b. In addition, the Member must provide certification and sufficient documentation if requested by the Bank, verifying that the:
 - 1) homebuyers and units funded by the Member satisfy the Bank's requirements and guidelines for the applicable AHP set-aside program,
 - 2) the funds will be used for eligible purposes,
 - 3) the homebuyers have completed a homebuyer counseling program, meeting the requirements of the AHP regulation,
 - 4) the household participating in the IDEA or WISH program is a First-Time Homebuyer according to the First-Time Homebuyer definition.
 - 5) that the units are subject to a retention agreement, consistent with the requirements of Section 1291.9(a)(7) of the Regulation.
 - c. The Bank will reimburse the Member for the amount of AHP subsidy that has been funded by the Member to the homebuyer. The Bank will reimburse the Member for such funds only upon receipt from the Member of the HUD-1 settlement statement evidencing that the full amount of the requested AHP subsidy was passed on to the homebuyer and was used for downpayment and/or reasonable and customary closing costs.
 - d. Each Member receiving AHP subsidy will be required to execute with the Bank documents in a form satisfactory to the Bank and meeting the requirements of the Regulation.

9. The Member must certify that the rate of interest, points, fees and any other charges for all loans made in conjunction with the AHP subsidy shall not exceed a reasonable market rate of interest, points, fees, and other charges for loans of similar maturity, terms, and risk.
10. Households are eligible to receive AHP subsidies from only one Bank set-aside program, or from the Bank's competitive program.
11. The Bank shall recover the amount of any AHP subsidy that is not used in compliance with the commitments made in the approved application and other documentation executed by the Member in accordance with the requirements of the Regulation.

B. The IDEA and WISH Programs: Descriptions and Guidelines

1. Individual Development and Empowerment Account (IDEA)
 - a. IDEA Program Description – The IDEA program makes AHP funds available through participating Bank Members to qualified homebuyers who have participated in an Individual Development Account (IDA) program or who have successfully completed a Family Self-Sufficiency (FSS) contract of participation with the goal of homeownership, in a form approved by the Department of Housing and Urban Development (HUD) pursuant to the HUD Regulation (24 C.F.R. Part 984), or who have participated in a lease-to-own program administered by a nonprofit organization or government entity that supports property retention of foreclosed homes for low-and moderate-income families.
 - b. IDEA Program Guidelines
 - 1) The homebuyer is eligible to receive the lesser of \$15,000 or three times the amount of:
 - a) the homebuyer's savings used for downpayment and/or reasonable and customary closing costs in a dedicated savings account under an IDA program; or
 - b) an escrow account maintained by a public housing authority for households who have successfully completed the requirements of an FSS contract of participation leading to homeownership.
 - c) the homebuyer savings used for downpayment and/or reasonable and customary closing costs under a lease-to-own program.
 - 2) The homebuyer must have saved for a minimum of 10 months with the IDA or FSS savings program and for a minimum of three years under a lease-to-own program.
 - 3) The homebuyer is a First-Time Homebuyer according to the First-Time Homebuyer definition.
 - 4) Homebuyers eligible for IDEA funds must meet income guidelines as stated in Section III(A)(3) of this Implementation Plan.
 - 5) Homebuyers eligible for IDEA funds must open escrow or deposit funds for the closing (or other equivalent process for consummating the commencement of a sale of property in the applicable state), on a home purchase transaction within five (5) years of enrollment in the IDEA program.
2. Workforce Initiative Subsidy for Homeownership (WISH)
 - a. WISH Program Description – The WISH program makes AHP funds available through participating Bank Members to qualified homebuyers and promotes and increases homeownership opportunities for workforce populations.
 - b. WISH Program Guidelines
 - 1) The home buyer is a First-Time Homebuyer according to the First-Time Homebuyer definition.
 - 2) Home buyers eligible for WISH funds must meet income guidelines, as stated in Section III(A)(3) of this Implementation Plan.
 - 3) Home buyers eligible for WISH funds must open escrow or deposit funds for the closing (or other equivalent process for consummating the commencement of a sale of property in the applicable state), on a home purchase transaction within one (1) year of enrollment in the WISH program.

- 4) The home buyer is eligible to receive the lesser of \$15,000 or three times the amount of the household contribution, such as household savings or gifts received by the household, toward the purchase of the home. Grants are not considered part of the household contribution.

IV. Restrictions and Debarments

A. General

The Bank may restrict or debar a Member or Sponsor from participation in the Bank's Affordable Housing Program ("AHP") if such entity shows a pattern of noncompliance, or engages in a single instance of flagrant noncompliance, depending on the nature and extent of the noncompliance and the specific circumstances that gave rise to the noncompliance. Noncompliance is the failure of a Member or Sponsor to comply with the terms of Section 10(j) of the FHLB Act or the AHP Regulation, this Implementation Plan, the Bank's policies, procedures, guidelines and instructions covering among other things, the use of the Bank's AHP funds under the AHP ("the Bank's AHP Policies and Procedures"), the AHP Direct Subsidy Agreement, and any commitments made in an AHP Application to the Bank. In addition, the Bank may debar a Member or Sponsor that has been (i) convicted of certain crimes, including fraud or a similar offence, embezzlement, theft, conversion, forgery, bribery, making false statements or claims, tax evasion, obstruction of justice, or any similar offence in connection with a housing development or the use of housing funds, including without limit AHP subsidies, or (ii) that has been suspended or debarred by any Federal agency for conduct described in Section IV A. (i).

B. Restrictions

The Bank may restrict a Member or a Sponsor from participation in the Bank's Affordable Housing Program because of noncompliance by the Member or Sponsor. Members or Sponsors may be restricted from receiving disbursements of existing awards or from submitting new applications in a competitive round. Members may be restricted from receiving disbursements or reservations of funds in any of the homeownership set-aside programs. The imposition of a restriction or debarment will not eliminate a Member's or Sponsor's existing obligations to comply with the AHP Regulation, the Bank's Policies and Procedures and any commitments made in an AHP Application to the Bank.

C. Debarments

The Bank may debar a Member or Sponsor from participation in the Bank's Affordable Housing Program.

D. Existing Awards

Following restriction or debarment, the Bank may, on a project-by-project basis, determine whether and under what conditions any AHP subsidies previously awarded to the restricted or debarred Member or Sponsor, or set-aside subsidies reserved for a restricted or debarred Member, may be disbursed.

Attachment A

Financial Review Guidelines (Competitive Application Program Only)

Pursuant to Section 1291.5(c), paragraphs (2), (3), (4) and (5) of the AHP Regulation, the Bank has established guidelines for determining need for subsidy, that the project's costs are reasonable, and that the project is feasible. These guidelines serve as a benchmark for evaluating projects and may be used as a basis for setting, adjusting, or rejecting requests for subsidy in the application, modification, and pre-/post-disbursement stages of a project. Except for the developer fee limits, variances to these standards will be considered by the Bank on a case-by-case basis based on an evaluation of information and documentation justifying the need for such exception.

In general, the Bank considers and reviews pertinent project information presented in the application or otherwise provided to the Bank, independently or upon request, during the relevant review process. Information required by the Bank to confirm compliance with project feasibility and need for subsidy standards normally will include the following:

Sources and uses of funds: The project's estimated sources of funds shall equal its estimated uses of funds, as reflected in the project's development budget. The difference between the project's sources of funds and uses of funds is the project's need for AHP subsidy, which is the maximum amount of AHP subsidy the project may receive. A Sponsor should demonstrate need for AHP subsidy by performing a cash sources and uses analysis. The analysis should calculate the gap between the cash costs² to complete the project and the sum of (1) any cash sources other than the Sponsor, and (2) any cash contribution by the Sponsor.³ The gap resulting from this calculation represents the maximum amount of AHP subsidy the Sponsor may receive for the project.

Project costs: Project costs, as reflected in the project's development budget, must be reasonable and customary and within the ranges outlined in these Feasibility Guidelines (including Exhibit I), which consider industry standards for the project location and the long-term affordability and financial needs of the project. Developer fees must conform to the Bank's limits, and projects that exceed the limits will be deemed ineligible.

Operational feasibility of rental projects: A rental project must be able to operate in a financially sound manner, in accordance with the Bank's Feasibility Guidelines, as projected in the project's operating pro forma. The requested AHP subsidy must be necessary for the financial feasibility of the project, as structured at application, disbursement, and completion/closing. In determining ongoing feasibility and need for subsidy, the Bank will take into consideration the conformance of the rate of interest, points, fees, and any other charges for all loans financing the project with market rate financing terms available for loans of similar maturity, terms, and risk.

Member involvement: The purchase price of property or services, as reflected in the project's development budget, sold to the project by a Member providing AHP subsidy to the project, or, in the case of property, upon which such Member holds a mortgage or lien, may not exceed the market value of such property or services as of the date the purchase price was agreed upon. In the case of real estate owned property sold to a project by a Member providing AHP subsidy to the project, or property sold to the project upon which the Member holds a mortgage or lien, the market value of such property is deemed to be the "as-is" or "as-rehabilitated" value of the property, whichever is appropriate. That value shall be reflected in an independent appraisal of the property performed by a state certified or licensed appraiser, as defined in 12 CFR 564.2(j) and (k), within 6 months prior to the date the Bank disburses AHP subsidy to the project.

The Bank has identified a set of feasibility analysis standards to use as benchmarks in evaluating a project's financial and operational feasibility and need for subsidy. These Feasibility Analysis Standards are described in Exhibit I to these Guidelines.

² Cash costs are the actual total cash outlay needed to pay for materials, labor, land acquisition, or other costs of completing the project. This does not include donations of land, or in-kind donations of labor, materials, or services.

³ In the case of homeownership projects where the sponsor extends permanent financing for the homebuyer, the sponsor's cash contribution must include the present value of any payments the sponsor is to receive from the buyer. The present value of payments the sponsor is to receive from the buyer includes any cash downpayment from the buyer, plus the present value of any purchase note the sponsor holds on the unit. If such a note carries a market interest rate commensurate with the credit quality of the borrower (market rate), the present value of the note equals the face value of the note. If the note carries an interest rate below the market rate, the present value of the note can be determined using the market rate to discount the cash flows.

Attachment A – Exhibit 1

Feasibility Analysis Standards

Benchmarks used to Establish a Project’s Feasibility and Need for Subsidy

	Criterion	Feasibility Benchmark	Oversubsidization Benchmark
Rental Development Budget	Capitalized replacement reserves	\$0 on new construction projects; variable on rehabilitation projects depending on age and condition of building.	\$0 on new construction projects; variable on rehabilitation projects depending on age and condition of building; exceptions made if reserves required by funding agency.
	Capitalized operating reserves	\$0	12 months of operating expenses and debt service payments (must be covered by financing sources other than AHP)
	Construction Cost per Square Foot (excluding land costs and soft costs)	To ensure consistent and reasonable cost assumptions, the per square foot construction cost should not be greater than the gross residential square footage cost estimates provided by the RSMMeans Company and included in the application package.	
	Developer fee	0%	Not greater than 12% of total residential development costs (including developer fee, but <i>excluding all capitalized reserves</i>)
	Hard cost contingency	New construction - 5% of hard costs Rehab - 7.5% of hard costs	New construction - 10% of hard costs Rehab - 20% of hard costs
	Soft cost contingency	0% of soft costs	10% of soft costs

	Criterion	Feasibility Benchmark	Oversubsidization Benchmark
Rental Operating Budget	Vacancy and bad debt rate - residential	5% of gross rents, or, if Section 8 project-based certificates, then 3%	10% of gross rents (except with market justification, especially with SRO projects)
	Vacancy and bad debt rate - commercial	10% of gross rents	50% of gross rents
	Operating reserves	\$0, but if zero, must have adequate debt service coverage ratio	Not greater than \$300 per unit per year
	Operating cost per unit	Not less than \$3,000 per unit per year	Not greater than \$6,250 per unit per year
	Management fees	Not less than \$25 per unit per month	Not greater than \$65 per unit per month
	Replacement reserves	\$250 per unit per year	\$600 per unit per year
	Pro forma assumptions for income compared to expense increases	Expenses increase 1% faster than revenues (e.g., 3% income increase versus 4% cost increase)	Expenses increase 2% faster than revenues (e.g., 3% income increase versus 5% cost increase)
	Debt service coverage ratio in year 1; defined as net operating income ⁴ divided by debt service payment	1.05	1.45
	Cashflow in year 1	\$0	Not to exceed 10% of gross income in year one unless cashflow is needed by project to cover deficits throughout retention period, or in order to meet minimum underwriting requirements for other lenders.
	Cashflow in years 1 through 5	\$0	Not to exceed the amount of the subsidy request
	Partnership management fees (tax credit projects only)	\$0	\$10,000 in year one (annual increases not to exceed 3.5%)
	Term of Permanent Financing	N/A	Not less than 15 years
	Interest rate assumptions	To ensure consistent and reasonable rate assumptions, interest rates and spreads should be set in accordance with the Interest Rate Assumptions memorandum included in the application package.	

⁴ Net Operating Income should be expressed as the difference between 1) effective gross income, or gross rents and miscellaneous income less vacancy allowance, and 2) operating expenses, taxes and assessments, and reserves. Operating reserves may be included up to the maximum limit established above.

	Criterion	Feasibility Benchmark	Oversubsidization Benchmark
Ownership	Construction Cost per Square Foot (excluding land costs and soft costs)	To ensure consistent and reasonable cost assumptions, the per square foot construction cost should not be greater than the gross residential square footage cost estimates provided by the RSMMeans Company and included in the application package.	
	Developer fee	0%	Not greater than 12% of total residential development costs (including developer fee, but <i>excluding all capitalized reserves</i>)
	Term of mortgage	N/A	Not less than 15 years
	Housing payment including principal, interest, taxes, insurance, and homeowners' dues as percentage of gross income	35%	N/A
	Interest rate assumptions	Must be consistent with single-family mortgage rates in effect at the time the mortgage is funded. For purposes of estimating a rate at the time of application, applicants should base assumptions on single-family mortgage rates as published in the application package.	

Attachment B

Scoring Guidelines

Points awarded in the various criteria will be either fixed or variable. Variable-point criteria are those that can be satisfied to varying degrees by an application. The application(s) best achieving each variable-point criterion in each funding round will receive the maximum point score available for that criterion, and the remaining applications will be scored on a declining scale. An application meeting a fixed-point criterion will be awarded the total number of points allocated to that criterion.

Scoring Criteria

I. Use of Donated or Conveyed Government-owned or Other Properties

5 points maximum, variable

In General

The creation of housing opportunities using a significant proportion (at least 20 percent) of: 1) units or land donated or conveyed by the federal government or any agency or instrumentality thereof; or 2) units or land donated or conveyed for a nominal price (\$1,000 or less) or units or land conveyed at a price significantly below fair market value by any other party. For properties donated, or conveyed at a nominal price, or at a price significantly below market value, points awarded are based on the percent of total units or land in the project/program meeting the above criterion.

Calculation of Score

Donations of a significant proportion of land or units from any party are eligible for up to five points (prorated for partial donations) provided that the conveyance of land or units was not from affiliated party (e.g., transfers from a nonprofit organization to a nonprofit affiliate or from a general partner to a partnership entity).

Modest expenses related to the conveyance of the property for use by the project may be paid by the recipient in addition to the "nominal price." Projects with annual land lease payments of \$1,000 or less over the retention period (15 years for rental - corroborated by operating pro-forma) will receive full credit.

Properties conveyed by the federal government, its agencies, or instrumentalities free of charge or at any price are automatically awarded one point, provided that the land or units constitute a significant proportion of the project's total units. Long-term leases from a government entity greater than or equal to 15 years also qualify for one point.

Properties donated or conveyed for more than a nominal price, but for below fair market value (FMV) may qualify for points in this category. The discount from FMV must be at least 80%. The property's FMV must be established by an appraisal from a federal, state, or local agency, or an appraiser with a Member, Appraisal Institute (MAI) designation. The appraisal must specify an "as of" valuation date that is within six months of the fully executed acquisition agreement and must have been ordered by and/or for the benefit of an institutional lender and/or public agency for the purpose of providing financing to the buyer of the property. The points are awarded as follows:

- Price is > 15% and < or = 20% of FMV = 1 point
- Price is > 10% and < or = 15% of FMV = 2 points
- Price is > 5% and < = 10% of FMV = 3 points
- Price is > \$1,000 and < or = 5% of FMV = 4 points

The points will be prorated based on the number of units conveyed at below FMV as a percentage of total units.

Property donations will be validated by cross-referencing the project development budget acquisition line item and confirming the acquisition cost.

II. Sponsorship By a Not-For-Profit Organization or Government Entity

10 points maximum, variable

In General

Project sponsorship by a sufficiently documented nonprofit organization, a state or political subdivision of a state, a state housing agency, a local housing authority, a Native American tribe, an Alaskan Native Village, or the government entity for Native Hawaiian Home Lands. Qualified sponsorship must entail an ownership interest (including any leasehold, partnership, or controlling interest) in a rental project or integral involvement in an owner-occupied project, such as exercising control over the planning, development, or management of the project, or by qualifying borrowers and providing or arranging financing of the units. For rental projects where a limited partnership owns or will own the project, and the general partner interest in the limited partnership is held all or in part by a qualified not-for-profit or government entity Sponsor, points are awarded based on the Sponsor's percentage share of ownership or control of the general partner(s). Points are also awarded to projects where the qualified not-for-profit or agency Sponsor receives at least 25% of the developer fee, if any.

Calculation of Score

If the Sponsor demonstrates the following:	Rental	Owner-occupied
501(c)(3) status or is a government entity, and	1 point	1 point
<p>To qualify for more than one point in this category, the nonprofit Sponsor or government entity Sponsor must be able to certify that, taking into account without limitation, all agreements, side letters, and ancillary arrangements with the for-profit entity, it:</p> <ul style="list-style-type: none"> • Is not controlled or owned by any for-profit entity, and • Is not created by, or managed by, a for-profit entity, and • Has been engaged in the business of fostering affordable housing for a minimum of one year. 		
<p>If the Sponsor meets the above criteria, the project may earn additional points, if the Sponsor possesses:</p> <ul style="list-style-type: none"> • >50% of voting & ownership interest of the general partner(s) the project earns 3 points, • >40%, the project earns 2 points, • >30%, the project earns 1 point <p>Note: If there is more than one nonprofit entity involved in development of a project, the reviewer will consider the nonprofit entities as "Sponsors" for the purposes of scoring in the calculation of "Nonprofit Percentage of Voting and Ownership Interest" for rental projects. If the voting and ownership interest is different, voting interest takes precedence in the determination of points awarded.</p>	Up to 3 points	n/a
<p>Rental Projects Assumes integral responsibilities listed in the AHP application</p> <ul style="list-style-type: none"> • Project planning and design • Project development • Construction • Property management • Project financing or securing funding commitments <p>Projects will be awarded 1 point for every element checked, up to the maximum of 3 points.</p>	Up to 3 points	n/a
<p>Owner-occupied Projects Assumes integral responsibilities listed in the AHP application</p>	n/a	Up to 6 points

If the Sponsor demonstrates the following:	Rental	Owner-occupied
<ul style="list-style-type: none"> • Project planning and design • Project development • Project financing • Construction • Management of self-help households • Pre-purchase counseling • Post-purchase counseling • Qualification of homebuyers <p>Projects will be awarded 2 points for every element checked, up to the maximum of 6 points.</p>		
<p>Receives equal to or greater than 25% of total available developer fee (or if no developer fee is in the project)</p> <p>Note: To qualify for points in this category, the primary nonprofit project Sponsor must receive at least 25% of any and all developer fee distributions, including investor payouts and/or future cashflow.</p>	3 points	3 points
Total possible points	10	10

III. Targeting

20 points maximum, variable

In General

The extent to which a project creates housing for very low- and low- or moderate-income households. For purposes of this scoring criterion, the Bank will score rental projects and owner-occupied projects separately.

Calculation of Score

Rental projects

Maximum points will be awarded to projects with 60% or more of the units reserved for households with incomes at or below 50% of the applicable area median income (AMI). Projects with less than 60% of the units reserved for households with incomes at or below 50% AMI will be awarded points on a declining scale based on the percentage of units reserved for households with incomes at or below 50% AMI and on the percentage of the remaining units reserved for households with incomes at or below 80% AMI.

Where fewer than 60% of the total units in a project are targeted to households with incomes at or below 50% of the area median, the Bank calculates the targeting score as follows:

Calculate the percentage of total units (*including* any non-targeted or market-rate units) that are targeted to VLI⁵ (50% AMI or below). In this example, the project has a total of 55 units targeted to 50% AMI or below, and 100 units total.

Example: $55 \div 100 = 55\%$

Subtract 20 from the percentage of VLI units in the project:

(The rationale for subtracting 20 is that at least 20% of the units must be targeted to VLI, and therefore those units are excluded from scoring credit.)

Example: $55 - 20 = 35$

⁵ VLI stands for very low income unit, which is a unit targeted to 50% AMI or below.

Divide the difference by 2:

Since 60% of the units targeted VLI results in 20 points, and if one is not counting the mandatory 20% of the units at VLI, then effectively, there are really only 40 percentage points optional (beyond the mandatory 20). Therefore, the “base score” gives credit for the percentage of targeted units minus 20 over 40 possible percentage points.

Example: $\frac{35^*}{40} = \frac{x}{20}$ * (variable = percentage VLI units minus 20)

Therefore, to solve for x, $35 * 20 \div 40$ (or $35 \div 2$)
x = base score, which, in the example, is 17.50

Subtract the base score from the total possible points (20) to arrive at the remaining possible points.

Example: $20.00 - 17.50 = 2.50$

Spread the possible points over a 30-point scale (the difference between 50% and 80% AMI) by dividing the remaining possible points by 30.

Example: $2.50 \div 30 = .08$

Calculate the WAAMIT⁶ for the remaining units targeted between 50 and 80% AMI, *excluding* any non-targeted or market-rate units.

Example: $(25 \text{ units} \times 60\%) + (10 \text{ units} \times 80\%) = 23$
 $23 \div (25+10) = .6571$, or 65.71%

Subtract the WAAMIT from 80% (highest possible WAAMIT). Multiply the answer by the remaining possible points divided by 30.

Example: $80 - 65.71 = 14.29$
 $.08 * 14.29 = 1.14$

Add this answer to the base score to arrive at final score

Example: $1.14 + 17.50 = 18.64$

Owner-occupied projects

Applications for owner-occupied projects will be awarded points on a declining scale based on the percentage of units to be provided to households with incomes at or below 80% of the applicable AMI. Maximum points will be awarded to projects with the highest percentage of units serving households with the lowest percentage AMI, within established maximum and minimum ranges.

The targeting score is a calculation based on the number of units targeted within each of four income targeting categories. Each category is weighted with a value of 5 through 20. For each targeting category, the number of units in that category is calculated as a percentage of the total project units. The percentage is then multiplied by the assigned weighting to arrive at a point value. The point values for each targeting category are added together to arrive at a final score.

The four income categories and weightings are:

- less than or equal to 65% AMI, weighted 20,
- greater than 65% AMI but less than or equal to 70% AMI, weighted 15,
- greater than 70% AMI but less than or equal to 75% AMI, weighted 10,
- greater than 75% AMI but less than or equal to 80% AMI, weighted 5.

⁶ WAAMIT stands for weighted average AMI target

Example of Project Scoring:

AMI Categories	No. of Units	% of Total Units	Weighting	Point Value %
< or = 65%	3	18.8%	20	3.75
> 65%, < or = 70%	4	25.0%	15	3.75
> 70%, < or = 75%	4	25.0%	10	2.50
> 75%, < or = 80%	5	31.3%	5	1.56
Totals	16	100.0%		final score = 11.56

IV. Housing for Homeless Households

6 points maximum, variable

In General

Points will be awarded for the creation of transitional housing, excluding overnight shelters, for homeless households permitting a minimum of six months occupancy, or the creation of permanent owner-occupied or rental housing, excluding overnight shelters, reserving at least 20% of the units for homeless households. Projects will be awarded points based on the percentage of units in the project reserved for homeless households above and including the 20% minimum.

Points **will not** be awarded if reserved units are for those considered “at-risk” of homelessness.

Homeless household means a household made up of one or more individuals, other than individuals imprisoned or otherwise detained pursuant to state or federal law, who:

- a. Lack a fixed, regular, and adequate nighttime residence⁷; or
- b. Have a primary nighttime residence that is:
 - 1) A supervised publicly or privately operated shelter designed to provide temporary living accommodations (including welfare hotels, congregate shelters, and transitional housing for the mentally ill)
 - 2) An institution that provides a temporary residence for individuals intending to be institutionalized; or
 - 3) A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

Calculation of Score

If a project reserves for homeless households **less than 20%** of its total units net of managers' units (“net units”), it receives no points in this category.

If a project reserves for homeless households **exactly 20%** of its net units, it receives exactly 3 points in this category.

If a project reserves **between 20% and 100%** of its net units for homeless households, the project will earn three points plus a pro-rata portion of an additional three points to be determined accordingly:

The units reserved for homeless (or fractions thereof) in excess of 20% of net units shall be divided by 80% of net units to derive a point value. The point value is then multiplied by three. For example:

If total units = 100, managers' units = 2; net units = 98; and

Units reserved for homeless = 50

Then $50 - (98 \times 20\%) = 50 - 19.6 = 30.4 =$ units in excess of 20% threshold

Then $30.4 \div (98 \times 80\%) = 30.4 \div 78.4 = .38775$

$.38775 \times 3 = 1.163$

Project's score = $3 + 1.163 = 4.163$

⁷ The following are examples of individuals who lack a fixed, regular, and adequate nighttime residence: 1) individuals living in transitional or supportive housing for homeless persons but originally came from streets or emergency shelters; and 2) individuals that ordinarily sleep in transitional or supportive housing for homeless persons but are spending a short time (30 consecutive days or less) in a hospital or other institution.

If a project reserves **100%** of its net units for homeless, it will receive 6 points.

Documentation Requirements

At the time of initial monitoring, the Bank will require documentation confirming that the specified units have been reserved for homeless households meeting the Bank's definition. This documentation must include: 1) evidence that the households were referred to the project by an established organization or agency that has been providing services to the homeless for at least three years (homeless services provider), and 2) certification from the homeless services provider that the person or household referred meets the definition of "homeless households" included in this plan.

In order to receive points for projects with units reserved for homeless households that are shown in the application proforma to generate rents set at the maximums for incomes greater than 30% of the area median, but which have no dedicated source of rental subsidy, the Bank will require that the applicant: 1) explain how the project will be able to absorb the potential cash flow deficit caused by the homeless units during the retention period, and 2) provide documentation from a homeless service provider that sufficient households exist in the target market area that are able to pay the scheduled rent for the units reserved for homeless households.

V. Promotion of Empowerment

6 points maximum, fixed

In General

Points will be awarded to projects to which the housing is provided in combination with a program or programs offering economically empowering services and opportunities for the residents, such as workforce development readiness, financial literacy education, pre- and post-homeownership counseling, on-site health care, on-site child daycare services, or after-school or out-of-school services.

Calculation of Score

Only a service or program that promotes economic empowerment of residents or homebuyers qualifies under this scoring criterion. Services or programs must be of a regular ongoing nature and provided to residents free of charge, except for day care services. Services must be provided on-site except that projects may use off-site services if they have a written agreement with the service provider enabling the development's residents to use the services free of charge. Referral services will not be eligible for points. Services or programs must be available within six months of the project's placed-in-service date.

No more than 6 points will be awarded in this category. No partial credit will be given. To receive 6 points the project Sponsor must commit to provide at least one of the eight empowerment features from the following list:

Empowerment Features
1. Workforce development readiness services or programs Should include services such as vocational training, or employment/career counseling and job placement, or adult-accredited education programs that include English as a second language, GED, and computer classes.
2. Financial literacy education Rental projects only. Services should include subject matter such as basic financial planning and money management, learning to save, on-line banking, overview of credit and credit reports, assessment of individual credit reports, steps to repair credit, budgeting and early warning signs of debt problems.

<p>3. Pre- and post-purchase homeownership counseling Owner-occupied projects only. Pre-purchasing counseling services should include core curriculum such as credit counseling, budgeting, money management, predatory lending prevention and awareness counseling; workshops for existing homeowners on maintenance, repairs, and improvements. Post-purchasing counseling services should include core curriculum such as budgeting, maintaining good credit, calculating and understanding home equity, retirement savings, and foreclosure prevention.</p>
<p>4. Sweat equity contribution/self-help Owner-occupied projects only. Activities required of the homebuyers or their families directly related to the construction of the home. A minimum of 250 hours required.</p>
<p>5. On-site primary health care services or programs Includes provision of medical, dental, and mental health services, including vaccination and screening programs, or on-site healthcare management programs that support residents' ability to find or sustain employment or be self-sufficient; only providing basic vaccinations is not point worthy. Merely providing health information or education to residents is too indirectly related to economic empowerment of residents to qualify for points.</p>
<p>6. On-site child daycare services or programs Physical space must be provided; licensed childcare providing 20 hours or more per week Monday – Friday. Program provides daycare for children ranging in age from infant to 6 years old. Program is distinct from an after-school or out-of-school program provided and described below.</p>
<p>7. After-school or out-of-school services or programs Providing a minimum of 15 hours per week. Program may serve as a substitute for child care, enabling parents or guardians to find or sustain employment. Program increases a youth's potential for personal and financial success by providing strong, supportive role modeling, supporting constructive behaviors and contributing to a youth's development and interest in education. Program is for school age children or youth ranging in age from 5 to 17 years old. Program is distinct from an on-site child daycare program provided and described above.</p>
<p>8. Bona fide service coordinator/social worker available Documentation supporting the experience and the duties of a service coordinator (not the on-site manager, for example) must be included in the application.</p>

Documentation Requirements

To receive credit for a “sponsor provided” service, the application must include a plan describing the service or program selected from the following list that will be provided to the residents or homebuyers. The plan must have been completed within six months prior to the application submission deadline date.

To receive credit for a service provided by an organization other than the Sponsor, an executed Memorandum of Understanding (“MOU”), or service contract, or letter of commitment must be completed by the provider of the service or program selected from the following list. The MOU, service contract, or letter of commitment must have been executed within six months prior to the application submission deadline date.

VI. First District Priority

16 points total, allocated as follows:

Special Needs, 5 points maximum, variable

In General

Projects will be awarded points for the creation of housing in which at least 20% of the units are reserved for occupancy by households with special needs, which includes the elderly, mentally or physically disabled persons, persons recovering from physical or substance abuse, and people with AIDS.

Calculation of Score

The number of special needs units (including non income-restricted units) is divided by total project units (restricted and non-restricted units), less any manager units, and the result is multiplied by 5.0 points to derive the score. For example:

If 25 of 50 units are *reserved for* special needs households, the calculation is 25 (special needs units) divided by 50 (total project units) multiplied by 5.0 points, or 2.5 points.

No points are awarded for any project with less than 20% of the units **reserved** for special needs households.

Units should not be double-counted if the unit qualifies under more than one special needs category.

The total for special needs units cannot exceed total project units.

Rural, 5 points maximum, variable

In General

Points will be awarded to projects to the degree that they finance housing located in rural areas, as designated by federal or state government and identified in the AHP application.

Calculation of Score

The number of rural units is divided by total project units (restricted and non-restricted units) and the result is multiplied by 5.0 to derive the score. For example, if 25 of 50 units are located within rural areas, the calculation would be:

25 (rural units) divided by 50 (total project units) multiplied by 5.0 points, or 2.5 points.

The project application must specify the source of the rural designation. Acceptable rural designations include those promulgated by USDA Rural Development, Farm Credit Bureau, state government program guidelines, or other similar sources.

No points are awarded for any project with less than 20% of the units located in rural areas. Projects may receive partial credit if the project includes multiple sites, with some sites located in defined rural areas, as in owner-occupied scattered-site acquisition programs.

First-Time Homebuyers, 6 points maximum, variable

In General

Points will be awarded to projects to the degree that they finance housing for First-Time Homebuyers. Only owner-occupied projects may receive points in this category.

No points are awarded for any project with less than 20% of the units **reserved** for First-Time Homebuyers.

Calculation of Score

The number of First-Time Homebuyer units is divided by the total project units and multiplied by 6.0 points to derive the score. For example, if 25 of 50 units are *reserved for* First-Time Homebuyers, the calculation is:

25 (First-Time Homebuyer units) divided by 50 (total project units) multiplied by 6.0 points, or 3 points.

VII. Second District Priority

Project Readiness, 10 points maximum, variable

In General

Points will be awarded to projects based on the extent to which, at the time of application, they have documented to the Bank's satisfaction that they have met certain development benchmarks, such as site control, entitlements, funding commitments, pre-approved borrowers, and others as may be applicable to the project.

Calculation of Score

Rental projects

Points are awarded based on the number of units within a project that satisfy the listed criteria:

Readiness features: Rental Projects	Points
1. Full site control (i.e., full title/ownership)	3.50
2. Partial site control (i.e., sole right to purchase property)	2.00
3. Zoning approval	3.50
4. Building permit issuance or building permit ready letter	3.00

The unit or unit-equivalent total for each element is divided by the total project units (restricted and non-restricted) and multiplied by the maximum scoring category point value to derive the score for the element.

The pro-ration works as follows: if the project has full site control for one of two targeted project parcels on which 60% of the units of a 100-unit project will be constructed, the calculation is:

60 (parcel with full site control) divided by 100 (total proposed project units) multiplied by 3.50 points, or 2.10 points.

Owner-occupied

For scoring purposes, owner-occupied projects are divided into two categories: 1) projects that involve new construction or rehabilitation of a for-sale unit; and 2) projects that involve only the purchase of an existing unit (i.e., no construction [typically scattered-site acquisition projects]). The following table lists the elements and the maximum point values associated with each element.

Readiness features: Owner-Occupied Project (credit is pro-rated based on number of units meeting criteria)	Category 1: New Construction or Rehab	Category 2: No Construction or Rehab (scattered-site)
1. Full site control (i.e., full title/ownership)	3.50	n/a
2. Partial site control (i.e., sole right to purchase property)	2.00	n/a
3. Buyers identified, ready, qualified	3.00	3.00
4. Zoning approval	3.50	n/a
5. Building permit issuance or building permit ready letter	3.00	n/a
6. Acquisition of existing homes- No construction or rehab projects with downpayment assistance	-	3.50

The unit total for each element is divided by the total project units (restricted and non-restricted) and multiplied by the maximum scoring category point value to derive the score for the element.

The pro-ration works as follows: if the project has zoning approval for 5 of 12 proposed single-family home project units, the calculation is:

5 (project units with zoning approval) divided by 12 (total proposed project units) multiplied by 3.50 points, or 1.46 points.

All of the elements are subject to pro-ration except with respect to a category 2 project that receives an automatic 3.50 points in recognition of the project's implied acceptable zoning. Other readiness indices of site control, zoning approval and building permits are not applicable. Category 2 projects can only receive 6.5 points for Readiness.

All Projects

Category elements are intended to be progressive (i.e., scoring credit for building permit in most cases requires site control). Credit cannot be awarded for building permit if site control is not documented.

VIII. Subsidy Per Unit

12 points maximum, Variable

In General

Points will be awarded based on the extent to which a project uses the least amount of AHP subsidy per AHP-targeted unit. For purposes of this scoring criterion, applications for owner-occupied and rental projects will be scored separately.

Calculation of Score

The project's subsidy per unit is the total subsidy requested divided by the number of income-restricted units (which is taken from the targeting worksheet of the application).

Example (rental): $\$540,000 \div 45 \text{ units} = \$12,000$ subsidy per unit

For purposes of this scoring category, a project's requested subsidy per unit must fall within a range in order to receive credit. The range for rental projects is \$10,000 to \$40,000. The range for owner-occupied projects is \$15,000 to \$45,000. Factors for owner-occupied and rental projects are calculated by dividing the difference between the high and low ends of the ranges into 12, the maximum points possible.

Owner-occupied factor: $12 / (45,000 - 15,000) = .0004$
Rental factor: $12 / (40,000 - 10,000) = .0004$

The low end of subsidy per unit range is subtracted from the project's subsidy per unit request, the difference is multiplied by the factor to arrive at a product. The product is subtracted from 12.

Example (rental): $\$12,000 - \$10,000 = \$2,000$
 $\$2,000 \times .0004 = .8$
 $12 - .8 = 11.2$

In cases where the subsidy per unit is less than the low end of the specified range, the project is automatically awarded 12 points. Conversely, if the project's subsidy per unit is greater than the high end of the range it is granted no points.

IX. Community Stability

15 points maximum, variable

In General

Points will be awarded to projects based on the extent to which they promote community stability, such as by revitalizing neighborhoods by optimizing project site use, being an integral part of a community planning and development initiative approved by a unit of state or local government, promoting transit-oriented development and providing access to community amenities, incorporating the use of sustainable building techniques or standards, increasing homeownership opportunities and economic integration, and not displacing low- or moderate-income households, or if such displacement will occur, assuring that such households will be assisted to minimize the impact of such displacement.

Calculation of Score

Scores are broken into the elements listed in the following table.

If a project's total score within this category sums to more than 15 points, the system will adjust the score downward to 15.

1. Revitalizing Neighborhoods By Optimizing Project Site Use

5 points maximum

Project will be awarded three points for meeting one of the following:	Points
<ul style="list-style-type: none"> • Development on an Infill Site Development of housing on vacant and undeveloped parcels in dense areas, especially in urban and inner suburban neighborhoods. The development takes advantage of existing infrastructure and promotes compact development that allows undeveloped land to remain open and green. Documentation requirement: A dated photo of the site, or documentation of the infill designation from a government entity. • Adaptive Reuse of Non-residential Buildings or Structures The conversion to residential use of Non-Residential Buildings or Structures such as, but not limited to, warehouses, schools, hotels, and hospitals. Documentation requirement: A photo of the existing property and other third party documentation validating the previous use. • Demolition or Substantial Rehabilitation of Vacant, Abandoned, or Substandard Residential Buildings Demolition must be undertaken by the Sponsor. Documentation requirement: For projects involving demolition, a dated photo of the site, documentation from a government entity validating the status of the property as vacant, abandoned, or substandard, and a demolition contract. For projects involving rehabilitation projects, a project capital needs assessment prepared by a third party verifying that rehabilitation will extend the life of the property by at least 15 years. 	<p>3</p>
<p>Project will be awarded two points for meeting one of the following:</p>	
<ul style="list-style-type: none"> • Development of a Brownfields Site Development of housing on a government designated Brownfields site. Documentation requirement: Documentation from a government entity or tribal equivalent designating the property as a Brownfield site. • Recovery of a Foreclosed Property in a foreclosure or deed in lieu of foreclosure All of the project units must be acquired via foreclosure or deed-in-lieu of foreclosure. Units qualifying for these points must have been acquired by the Sponsor (or household recipient) directly via the foreclosure or the deed-in-lieu of foreclosure. Properties that use the county or city as the intermediary between the lender and the Sponsor also qualify. Units that passed through the ownership of other entities prior to acquisition by the Sponsor (or the household recipient) do not qualify for points. Documentation requirement: Documentation from a third party evidencing that the subject property was a foreclosed property or that it was acquired via deed-in-lieu of foreclosure. • Rehabilitation of a Historic Building 	<p>2</p>

Documentation requirement: Documentation from the National Park Service or a state historic preservation office validating the historic designation.	
--	--

2. Community Planning and Development Initiatives **2 points maximum**

Project will be awarded two points for being integral to a neighborhood stabilization plan approved by a unit of state or local government, such as, without limitation, the following:	Points
<ul style="list-style-type: none"> • Metropolitan Planning Organization or Councils of Government plan area • Priority Development Areas <p>Documentation requirement: Documentation from a unit of state or local government verifying that all of a project's units are located within the geographic area of the neighborhood stabilization plan.</p>	2

3. Proximity to Transit and Amenities **4 points maximum**

Project will be awarded points for being located near one or more of the following:	Points
<ul style="list-style-type: none"> • Transit <p>Project must be located within a 1/4 mile radius of a transit station, rail station, commuter rail station, bus station, or public bus stop with service at least every 30 minutes between 7 and 9 a.m., and between 4 and 6 p.m., Monday through Friday. One-half point will be awarded for each line or route available, up to a maximum of 2 points.</p> <p>To receive points the transit line must be in place at the time of application. Distances must be measured using a standardized radius from the development site to the target transit line. Points will not be given if the radius line crosses a significant physical barrier or barriers. Such barriers include highways, railroad tracks, regional parks, golf courses, or any other feature that significantly disrupts the pedestrian walking pattern between the development site and the transit line. The radius line may be struck from the corner of development site nearest the target transit line, to the nearest corner of the target transit line. However, a radius line shall not be struck from the end of an entry drive or on-site access road that extends from the central portion of the site itself by 250 feet or more. Rather, the line shall be struck from the nearest corner of the site's central portion.</p> <p>Documentation requirement: A printout from the websites of Google, Mapquest, or Walkscore clearly showing the number of transit lines and the project's distance relative to those transit lines. The map must be legible and have a clear scale and legend. Transit authority maps and schedules must accompany the aforementioned maps. Applications with non-contiguous scattered-site addresses will need to include multiple maps showing the distance from each property address to each relevant transit line. The Bank reserves sole discretion in determining the relevancy of the transit services and the suitability of the documentation in awarding points for this element.</p>	2
<p>Project will be awarded points for being located near one or more of the following:</p> <ul style="list-style-type: none"> • Amenities <p>Project must be located within 1/4 mile radius of amenities appropriate and accessible to the project's population. Points (0.50 each) will be awarded for each of the following eight items, up to a maximum of 2 points:</p> <ul style="list-style-type: none"> ○ public park, recreational facility, or community center ○ public library ○ a grocery store of 5,000 gross interior square feet or more 	2

<ul style="list-style-type: none"> o health care facility or medical clinic o full banking services (check cashing and ATM only, does not apply) o public school (K-12), community college, or university o police or fire station, or post office o retail (clothing store, or department store, or hardware store, or stand-alone pharmacy) <p>To receive points, the amenity must be in place at the time of application. Distances must be measured using a standardized radius from the development site to the target amenity. Points will not be given if the radius line crosses a significant physical barrier or barriers. Such barriers include highways, railroad tracks, regional parks, golf courses, or any other feature that significantly disrupts the pedestrian walking pattern between the development site and the amenity. The radius line may be struck from the corner of development site nearest the target amenity, to the nearest corner of the target amenity site. However, a radius line shall not be struck from the end of an entry drive or on-site access road that extends from the central portion of the site itself by 250 feet or more. Rather, the line shall be struck from the nearest corner of the site's central portion. Where an amenity such as a grocery store resides within a larger shopping complex or commercial strip, the radius line must be measured to the amenity exterior wall, rather than the site boundary. The resulting distance shall be reduced in such instances by 250 feet to account for close-in parking.</p> <p>Documentation requirement: Printout from the website of Google, Mapquest, or Walkscore clearly showing project's distance relative to amenity. The map must be legible and have a clear scale and legend. Applications with non-contiguous scattered-site addresses will need to include multiple maps showing the distance from each property address to each relevant community amenity. The Bank reserves sole discretion in determining the relevancy of the amenities and the suitability of the documentation in awarding points for this element.</p>	
---	--

4. Sustainable Developments

3 points maximum

Project will be awarded points for obtaining one of the three following certifications:	Points
<ul style="list-style-type: none"> • LEED, <u>a</u> GreenPoint rating less than 400-80 points, Enterprise Green Communities, or Home Energy Rating System II (HERS II) rating improvement equal to a 20% improvement over the current project's HERS rating. <p>A maximum of 1 point will be awarded for obtaining one of the above certification levels.</p> <p>Documentation requirement: Documentation from certifying agency, organization, certified HERS rater, or certified GreenPoint rater must be provided upon project completion.</p>	1
<ul style="list-style-type: none"> • LEED Silver Level, <u>a</u> GreenPoint rating equal to or greater than of 80 to 400-109 points, or HERS II rating improvement equal to or greater than 25% improvement over the current project's HERS rating. <p>A maximum of 2 points will be awarded for obtaining one of the above certification levels.</p> <p>Documentation requirement: Documentation from certifying agency, organization, certified HERS rater, or certified GreenPoint rater must be provided upon project completion.</p>	2
<ul style="list-style-type: none"> • LEED Gold or Higher Level, <u>a</u> GreenPoint rating equal to or greater than or equal to 425-110 points, or HERS II rating improvement equal to or greater than 30% improvement over the current project's HERS rating. <p>A maximum of 3 points will be awarded for obtaining one of the above certification</p>	3

levels. Documentation requirement: Documentation from certifying agency, organization, certified HERS rater, or certified GreenPoint rater must be provided upon project completion.	
---	--

5. Homeownership and Economic Integration

2 points maximum

Project will be awarded one point for each of the following features:	Points
<ul style="list-style-type: none"> Creation of Affordable Homeownership Opportunities <p>Project must increase affordable homeownership opportunities in the targeted area. Only owner-occupied project or rental projects with homeownership conversion plans qualify for points in this category.</p> <p>Documentation Requirements: No documentation needed for owner-occupied projects. Rental projects must provide a homeownership conversion plan, such as a lease-to-own plan.</p>	1
<ul style="list-style-type: none"> Location in Middle, Moderate, or Upper Income Census Tracts <p>All project units, including scattered site projects, must be located in middle, moderate, or upper income census tracts.</p> <p>Documentation requirement: Printout(s) of the project census tract(s) from the website of the Federal Financial Institution Examination Council (FFIEC).</p>	1

6. Preventing or Minimizing Household Displacement

1 point maximum

Project will be awarded one point for:	Points
<ul style="list-style-type: none"> No Household Displacement, or Household Displacement but Mitigated through Relocation Assistance <p>Development of the project must not cause the displacement of households or displacement must be mitigated.</p> <p>Documentation requirement: Project must provide an explanation of the project's situation and if displacement is occurring, provide a relocation plan along with appropriate expenses allocated for relocation assistance in the development budget.</p>	1

Attachment C

Compliance Monitoring Guidelines (*Competitive Program*)

- I. Monitoring requirements for project Members, Sponsors or Owners.
The Bank provides monitoring guidelines, which are available on the Bank's website, that set forth respective monitoring obligations for project Members, Sponsors, or Owners.
- II. Monitoring Prior to Project Completion – **Semiannual Survey**
The Bank surveys the Member and Sponsor on the status of each project semiannually until the project is completed. The Bank may take action to cancel the subsidy, pursuant to the guidelines set forth in Section F. Time Limits on Use of Subsidy above.
- III. Monitoring After Project Completion – **Initial and Long-Term Monitoring**
 - A. **Owner-occupied Projects**
 1. Within a reasonable period of time after project completion, the Bank conducts initial monitoring of the project. The Bank considers an owner-occupied project complete if it has met these three criteria:
 - a. AHP subsidies are fully funded;
 - b. construction or rehabilitation of the project is complete; and
 - c. all loans are closed, or all units are occupied.
 2. The Bank requests from the Member a certification which states that
 - a. the AHP subsidies have been used according to the commitments made in the AHP application or approved modification(s) and the requirements of the Regulation;
 - b. the services and activities committed to in the AHP application or approved modification(s) have been provided; and
 - c. the AHP-assisted units are subject to AHP retention agreements that meet the requirements of Section 1291.9(a)(7) or (a)(8). In the case of rehabilitation of a unit currently occupied by the owner where there is no loan closing, the retention period must begin the date upon which all subsidy has been disbursed to the homebuyer.
 3. The Bank reviews the project's final development budget, unit purchase price, sources and uses of funds, borrower income as committed to in the AHP application or approved modification(s), and any such additional information as the Bank may require to validate the project's actual costs and to determine feasibility and need for subsidy in accordance with the Bank's feasibility guidelines. The Bank also reviews documentation supporting subsidy delivery, financing sources and terms, the existence of legally enforceable retention documents on the units, and third party income verification documents. The Bank will monitor all owner occupied projects, and will at least select a sample of the project's units to review back up documentation such as information on household income pursuant to the Bank's risk-based sampling plan.
 4. There is no long-term monitoring required for owner-occupied projects.
 - B. **Rental Projects**
 1. Initial Monitoring
 - a. Within a reasonable period of time after project completion, the Bank conducts initial monitoring of the project. The Bank considers a rental project complete if it has met these two criteria:
 - 1) AHP subsidies are fully funded; and
 - 2) construction or rehabilitation of the project is complete as evidenced by a habitability document such as a Certificate of Occupancy or Notice of Completion.

- b. The Bank requests from the project owner a certification which states that:
 - 1) the AHP subsidies have been used according to the commitments made in the AHP application or approved modification(s) and the requirements of the Regulation;
 - 2) tenant rents and incomes are accurate and in compliance with targeting commitments;
 - 3) services and activities committed to in the AHP application or approved modification(s) have been provided; and
 - 4) the project is subject to AHP retention agreements that meet the requirements of Section 1291.9(a)(7) or (a)(8).

- c. The Bank performs feasibility and need for subsidy analysis of the final development budget, sources and uses of funds, pro forma income and expense projections and any such additional information as the Bank may require to validate the project's actual costs and to determine feasibility and need for subsidy in accordance with the Bank's feasibility guidelines. The Bank reviews the project's rent roll and assesses if rent and income levels meet targeting commitments in the AHP application. Although the Bank conducts initial monitoring of all projects in the competitive application program, in connection with its analysis of the rent roll, the Bank may review back-up documentation regarding household incomes and rents for selected units based on the Bank's risk-based plan for selecting units to sample. In addition, the Bank reviews documents supporting subsidy delivery, financing sources and terms, and the existence of legally enforceable retention documents on the project.

C. Long-term Monitoring

- 1. For rental projects that have been allocated federal Low-Income Housing Tax Credits (tax credits), the Bank will rely on the monitoring by the state-designated housing credit agency administering the tax credits of the income targeting and rent requirements applicable under the tax credit program. The Bank will not obtain and review reports from such agency or otherwise monitor the projects' long-term AHP compliance.

- 2. Rental projects that have **not** been allocated tax credit financing,
 - a. The Bank will require project owners to submit annual certifications that household incomes and rents are in compliance with the commitments made in the approved AHP application.
 - b. The Bank will use a risk-based sampling plan to determine which rental projects will be subject to long-term monitoring to commence in the second year after project completion through the 15-year retention period. The sampling of projects will be based on one or more risk factors, such as amount of AHP subsidy in the project, type of project, size of project, location of project, Sponsor experience, and any other monitoring of the project provided by a federal, state or local government entity.
 - c. For the projects sampled, the Bank will review:
 - 1) the back-up project documentation regarding household incomes and rents maintained by the project owner, and
 - 2) other project documentation as the Bank deems necessary.

IV. Site Visits

The Bank may conduct a site visit at any stage of a project (pre- or post-completion) based on the current status of the project. In determining whether to conduct a site visit, the Bank may consider various factors, including (without limitation):

- A. Whether the project is in compliance with the requirements of the AHP,

- B. The amount of subsidy awarded to the project,

- C. Material changes in the project since approval that could delay the project beyond the Bank's completion deadline, bring into question the project's need for subsidy, or threaten its financial feasibility,

- D. The results of inquiries or site visits conducted by another monitoring entity that come to the Bank's attention.
